

The background is a dark blue to purple gradient. It features a series of concentric white circles centered in the upper half of the image. A white grid, consisting of a vertical line and a horizontal line, is overlaid on the circles. A bright, glowing white light source is positioned on the left side, partially obscured by the circles and grid, creating a lens flare effect.

The Optometric Oath

*With full deliberation I freely and
solemnly pledge that.*

*I will practice the art and science of optometry
faithfully and conscientiously, and to the fullest scope of
my competence*

*I will uphold and honorably promote by example and
action the highest standards, ethics and ideals of my
chosen profession and the honor of the degree, Doctor
of Optometry, which has been granted me.*

*I will provide professional care for those who seek my
services, with concern, with compassion and with due
regard for their human rights and dignity.*

*I will place the treatment of those who seek my care
above personal gain and strive to see that none shall
lack for proper care.*

*I will hold as privileged and inviolable all information
entrusted to me in confidence by my patients*

*I will advise my patients fully and honestly of all
which may serve to restore, maintain or enhance their
vision and general health.*

*I will strive continuously to broaden my knowledge
and skills so that my patients may benefit from all new
and efficacious means to enhance the care of human
vision.*

*I will share information cordially and unselfishly with
my fellow optometrists and other professionals for the
benefit of patients and the advancement of human
knowledge and welfare.*

*I will do my utmost to serve my community, my
country and humankind as a citizen as well as an
optometrist.*

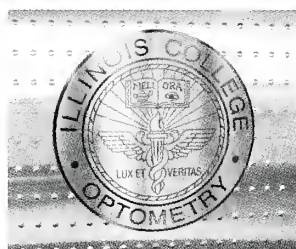

*I hereby commit myself to be steadfast in the
performance of this my solemn oath and obligation.*

ICO has become an integral part of my life journey. It is through this place I have learned to go beyond myself: John Maxwell said "Success is when you add value to yourself. Significance is when you add value to others." ICO and the profession of Optometry have given me many opportunities to give, love, serve, help, and encourage. This I now know is "Significance." ICO has given me the opportunity to cultivate wonderful and lasting friendships. I have come to know great minds through my teachers and attending doctors- who I know will remain my lifetime mentors. Thank you for sharing your wisdom and your love for teaching and patient care. To my colleagues, Class of 2005, who have taught me the true meaning of friendship. To the Class of 2006 who has given me great opportunities to be a mentor, a teacher, a friend and a confidante. IEI and its patients, whom I have had the chance to care for and work with - it is through them I have grown to love and thirst for patient care and clinical experience in order to be a competent clinician. It has truly been an inspiration. I am a grateful daughter for having a loving, caring and the most supportive parents. It is through the love of a father that gave me the strength to follow my dreams and my heart's desire. I thank God for gracing me with a wonderful dad that is understanding and filled with wisdom. Dad, I hope you know whenever you say "how proud you are of me," may you always remember as well that it is you who has molded me to strive hard in life, to keep a good and positive attitude about everything, to remain humble and close to God. Tita, thank you for your unselfish love that you continuously bring to our family. And, to my brothers -Gen and King, my only sister- Genny, thank you for your unconditional love, support and many laughs, which has made my life journey worth traveling in spite of many difficulties, troubles, and sometimes pain. I LOVE YOU ALL.

This day my heart rejoices and will always and continuously praise and honor our Almighty God and our Lord Jesus Christ. This day is for my family and many friends and brethren from my church - Iglesia Ni Cristo, who have given me their support and many prayers that have helped me get through it all. Truly, there is a light at the end of the tunnel. And today I see how enlightening it is. Ka Jojo, Bro. Bob and Sis. Doris, thank you for your inspirational wisdom. You are all God sent.

SVOSH

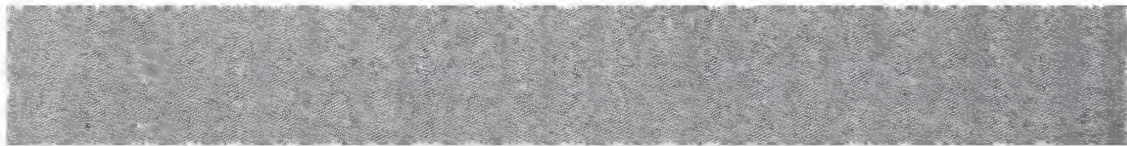

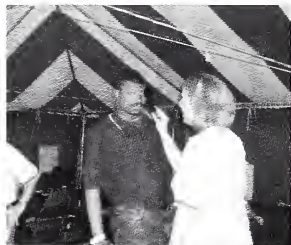

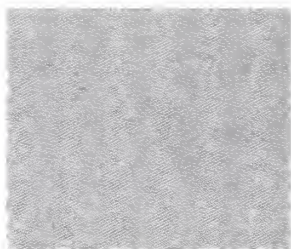

For the first time, SVOSH ICO was affiliated with three mission trips. Five Students went to San Pedro de Macoris in the Dominican Republic with VOSH Illinois. Seven students went to San Pedro Sula, Honduras with VOSH Indiana. Six students went to San Carlos Mexico with VOSH Michigan. Over 7000 patients were seen combined, and a great time was had by all!

Dear Kelly,

As your years at ICO draw to a close I can't help but reflect on all the hours of hard work you have accomplished. All the studying, all the tests, all the labs, all the challenges, and all the patients you met on your way to becoming Doctor Boucher. As a very young person you were inspired by our family eye doctor, and now, soon, you can go out and inspire and help others with your knowledge and care. I am so proud to be able to tell people that my daughter's career is helping others. Thank you for that wonderful opportunity.

Love, Mom

We look forward to celebrating your Special Day!

Kelly B.

Roses are Red Violets are Blue.
These words are coined with much love to you.

I know it has been a challenge and trying at best.
In my minds eye you stand above all the rest

You've set your sights high and it's easy to see,
What a confident person you've turned out to be.

So congratulations to you and best wishes too
It's time to feel happy and no longer so blue

You've completed your task with relative ease.
I'm sure your career will take off like the breeze.

You could say I'm proud of you!

Love,

Dad

To Our Sister, Our Friend and Our Future Eye Doctor:
Industrial Engineering no way! Optometry yippee-yea!
You commuted from Suburbia to Chicago for an hour or two.
You survived the "hot boiling, slow draining" condo with a very special view.
You migrated to multiple cities for internships and still did your best.
Whatever the next step, you are sure to be a success.
Congratulations on reaching this milestone!
No one deserves a more rewarding career and the kindest of patients.
Keep striving to be your best and find happiness in yourself.

Love -

Rob, Carolyn, Baby & Barley

Amy-
After all these years, it's finally your turn!
Congratulations!
We love you,
Mom & Dad

A Parents' Sonnet
by Richard Warnke

Jeanette Marie, our daughter dear, how proud
Your gloating parents are of smarty you;
Rejoice in pomp and stately pageant loud,
The graduation honors that you're due.
You labored for your grades; and learning goals
Were realized through lab and class and test.
In clinic you adapted to the roles
Required by Doctor's coaxing out your best.
The lectures that you mastered are degrees,
Of progress from our Northwest fog and rain,
To I.C.O.'s respendent autumn leaves.

Then dreams and learning shaped a brilliant mind,
Matured by God to heal impaired mankind.

Congratulations Jeanette!

GINA

She has grown up as the baby in a family of nine—
Her spirit and her character so easy to define—
Her hard work and determination, brought her
Where she wanted to go—
From Kansas University to a place called I.C.O.

"My grandmother was a determined and courageous woman who lived most of her life blind. I watched with amazement as she folded socks, changed diapers and made meatballs. Watching such an amazing woman overcome so many obstacles made me believe in myself. She died when I was twelve, and she was the biggest influence in my decision to go into the field of Optometry."

---Gina Dimarco

- "I was 18 when I carried you home from the hospital, you were 7 when I got married. You were the sister that I never lived with and you were the only sister I got to see graduate from high school, college and graduate school! Congratulations, Dr. Gina." Love, Diane, Randy, Lauren and Logan.
- "Congratulations Gina. You did well for being the baby! We love you!" Love, Debbie, Jim, Jared, and Julia
- "It's great that grandma was your inspiration, but inspiration can only get you so far. It was your dedication and hard work that got you where you are today." Love, Dave, Angie, MacKenzie and Dylan
- "It seems like only yesterday I would rush home from school to be the first to hold you. You grew up so fast and we have so many memories, especially Disneyland when you made sure everyone knew you were four and not three. Congratulations as you begin the next step of your life. You have done a great job bringing up the rear of this family. I love you." Dawn, Vincent and Christine
- "Gina we are so proud of you for all your hard work. You are a beautiful, bright, sister and Aunt. Good Luck in your career. We love you!" John, Amy, CJ, Carter, and Camryn.
- "Congratulations on all your hard work. We are so proud of your accomplishments. I knew all of my tutoring paid off. We love you!" Jeff, Patty, Ashley, Lynsy and Emily.
- "We had no doubt that you could make it through this challenge, and we are very proud of you. We were a little concerned that "Ginaitis" may get in the way, but now it will be an actual disease state!" With love, Joe, Niki, Joseph, Jack, and Adam.
- "Gina, you really did it! You are a true inspiration to everyone who knows you. I am so proud to call you my sister and now my eye doctor! I love you lots!" Mary
- "Your grandma would have been so proud of you, as we all are!" --Aunt Bebe, Uncle Clarence, and Uncle Joe.
- "We are so proud of your accomplishments and we are blessed to have you as our goddaughter. We love you!" Love your Godparents, Mr. and Mrs. Egender

You've done so much,
You've come so far
to grow into the "you"
that you are...and God
was with you as you grew.
He had this special plan
for you.

As you graduate and travel
on may God bless you with
success and happiness. We
Are so very proud of you.
Love always and forever!"

Dear Brian,

The dream began with a little boy in fourth grade telling his family and friends that he wanted to be an Eye Doctor when he grew up! Well Brian, you stuck to your dream. We admire the way you always did your best in all you set out to do and how you made so many wonderful friends along the way. All of us that have been a part of your life over the years have been blessed by your kindness and the example of how you live your life. Your passion and desire in wanting to help others in your profession has now become a reality. Always live your life to the fullest and remember the gifts that God has given you should be shared! We have always been very proud to be your parents.

Congratulations Dr. Brian James Herman!

You will be a great Optometrist!

Love, Mom and Dad

Congratulations, Julie!

This graduation day you have been anticipating for many years is finally here, and you are now Dr. Julie Weibert, O.D.! What a dream come true for you! As you know, this day did not come without many hours of study, worry, anxiety, elation, relief, and many other emotions. Your family has been behind you 100% of the way, knowing that within yourself you had the drive and dedication to accomplish your goal. You have achieved this goal with honors, and we know God has richly blessed you with the talent and inner strength you need to be a wonderful, compassionate doctor. As Mother Teresa, who ministered to many, once said, "Let no one ever come to you without leaving better and happier." With this goal in mind, you cannot fail.

God bless you as you begin your new career, and we love you with all our hearts!

Dad, Mom and Chris

Congratulations Class of 2005 Graduates!

Welcome to the Optometric profession. You are now a member of the largest Optometric Alumni Association!

The Illinois College of Optometry Alumni Association would like to congratulate you on your graduation. You can be proud to be a graduate of the finest optometric institution in the world. Your education at ICO has provided you with the foundation for a lifetime of making a difference in people's lives. We wish you every success in your practice.

Let the ICO Alumni Association be a resource to you as you begin the next stage of your optometric career. Feel free to contact Dr. Donovan Crouch, President of the Alumni Association, at dlc@slvisioncare.com, or contact Connie Pietrzak, Director of Alumni Relations and Continuing Education, at cpietrzak@eyecare.ico.edu, and let us know how we can serve you.

Best Wishes from your Alumni Association and the Alumni Council!

it's one thing to have a partnership

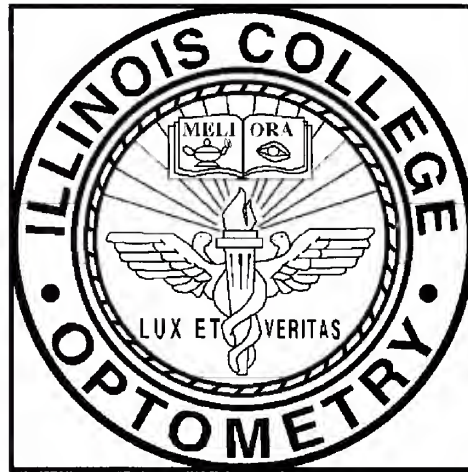

and quite another to **honor** it.

Let us be among the first to say, we understand that graduating is only the beginning of a successful career in eye care for you. Think of us as your partner. As you think about your future, we hope you'll include TLC as your resource for laser vision correction for your patients. While the mainstay of your practice may not be laser vision correction, adding conventional and CustomLASIK to supplement other forms of vision correction is a smart way to help your practice grow. TLC has always been committed to a partnership model with optometrists. We work closely with you, offering support from our Clinical Director, operating surgeons, technicians and staff. And because not everyone is a good candidate for LASIK, we rely on your evaluation to help us determine qualified candidates. You're part of the team from the very beginning and we take that seriously. Your success is our success.

Of all the decisions facing you in the next few months, we think becoming an affiliate with TLC will help you provide the best possible care for your refractive surgery patients. We look forward to working with you. To become a TLC Affiliate or for more information, visit our website or call us at 708.562.2020.
